

Scripture Reading: Joshua 10:1-15

The Lord Fought the Battles for His People

Having seen the defeat of Jericho and Ai by the hands of the Israelites, the Gibeonites came and joined with the Israelites by making a covenant with them. Seeing this, Adonizedek King of Jerusalem, Hoham king of Hebron, Piram king of Jarmuth, Japhia king of Lachish and Debir king of Eglon united themselves and came against the Gibeonites. The Gibeonites sent word to Joshua regarding this. Instantly, Joshua and His people came to war against these five kings. God gave the enemies into their hands. When it was time for the sunset, since there were more enemies left out, Joshua spoke to God and commanded the sun and the moon to stand still. It obeyed his command. The people marveled saying; will the Lord do such a mighty thing because of one man's prayer?

Question:

Did God truly do that? Is there any other proof for it apart from the bible?

Answer:

God not just created this world; He is the creator of the entire universe with millions of galaxies and constellations. This incident is a proof of His sovereignty. As a proof of this happening, there are records in the Chinese history, the Japanese and North American records about a lengthy day on which the Sun did not set. You can get more details in the internet with the link: www.geocentricity.com/astronomy_of_bible/jld/

It is said that the report given by NASA is false. Nevertheless, all of this is required for those who do not trust God. The miracles that God has done to those who believe and obey Him are innumerable. It was His love towards us that He divided the Red Sea, split Jordan, brought down Jericho, and stilled the storms and the sea, resurrected Lazarus, and He Himself battled on behalf of His children.

"The Lord shall fight for you and you shall hold your peace" Exodus 14:14

Prayer

God of promises, what You say will be fulfilled and what you command will stand. Thank You for battling and interceding on our behalf. Amen
